

Artwork Checklist - Paper Parts Artwork

Text

- Fonts outlined?
- Font size above 6pt? (If the font is thin then it will be harder to line up on the press and avoid it filling in. So if the font is thin then we recommend going to 6.5-7pt.)

Images

- Is the artwork high resolution (above 300dpi or vector format)?
- If overprint has been used, please ensure that no images or logos have been lost. (we recommend viewing the artwork as a PDF with overprint preview, if this is applicable).

Colours

- Is the artwork CMYK?
- Have any pantones been used? (Please see artwork guidelines for more advice on using pantones)
- Barcodes must be 100% black

Dimensions

- Does the artwork fit in the relevant template?
 - o Is there any text in the no text area?
 - o Does the artwork have bleed?
- Booklets should be set up in printer's pairs (ideally with the pages numbered for reference).
